NONE OF THE CONTENTS PRESENTED HERE IS INVESTMENT ADVICE

What are Crypto Assets? What is a Blockchain?

- Unlike stocks, they represent a digital store of value on a Blockchain

Why?

- Censorship-resistant, permissionless store of value
- Transformative potential, novel technology
- To cover different investor interests
 - Collectibles (NFTs)
 - Store of value (Bitcoin)
 - Utility (Ethereum, Solana, Polygon, etc...)
 - Privacy coins (Monero, Worldcoin)
 - Stablecoins (USDC, DAI, EURe)

- * Reliable

Picking crypto assets

- How to select assets?
- Stock to flow model (like for Commodities) [<https://www.lookintobitcoin.com/charts/stock-to-flow-model/>]
- Country Model (Ethereum) [<https://www.seba.swiss/wp-content/uploads/2023/05/seba-research-digital-investor-ethereum-self-sustaining-engine-5-2023-en.pdf>]
- Discounted Cashflow [<https://coinstack.substack.com/p/intrinsic-value-comes-from-cash-flows>]
- Don't blindly invest, read the white-paper, do your research

The DeFi Investor 🔎 ✅

@TheDeFinvestor

...

A big % of my portfolio is still in BTC & ETH.

- > Their annual inflation is very low
- > The downside is limited (both won't return to their '22 lows imo)
- > Today's hot altcoins may be dead in a year

I'd rather wait for retail to come back, and then bet big on altcoins.
